AAI's Phased Approach: How AAI is achieving transformative adaptation results for Africa in sync with global processes

PHASE 1 2015 — 2016	PHASE 2 2017 — 2019	PHASE 3 2020 — 2030
<p>AAI receives high-level political backing and is launched at COP 21 in Paris</p> <p>AAI receives the political mandate from African Heads of State and Government. All 54 African countries endorse AAI.</p> <p>AAI launches at COP 21 in Paris.</p> <p>Two Technical Working Group meetings help AAI to establish its identity as an African-owned initiative, achieving adaptation results for Africa.</p> <p><i>This phase is successfully complete.</i></p>	<p>AAI establishes its visibility and reputation as a responsive adaptation initiative for Africa</p> <p>AAI facilitates partnerships and broadens networks to strengthen climate finance readiness.</p> <p>Countries are supported with National Adaptation Plans. AAI fosters new collaborations between African initiatives, Green Climate Fund and UN agencies.</p> <p>AAI begins to scale-up and replicate adaptation action under 4 Thematic Pillars. AAI launches 4 Flagship Programmes and develops resourcing plan for Phase 3.</p> <p><i>This phase is successfully complete.</i></p>	<p>AAI achieves transformative adaptation results for African countries throughout the Decade of Climate Action</p> <p>2020-2023: AAI strengthens access to GCF Resources; sponsors over 20 countries on readiness, NAPs and implementation, incl. AAI Flagships. Develops 1st and 2nd State of Adaptation in Africa Report (SoAR).</p> <p>AAI contributes knowledge and insight to global processes at pivotal moments: 2020 Adaptation Action Summit & COP 26; 2021 COP 27; 2023 UNFCCC Paris Agreement Global Stock Take & deadline for setting the post-2020 collective finance goal.</p> <p>2024-2027 and 2028-2030: AAI delivers scaled-up activities across Pillars; offers strategic learning to catalyze continued climate investment and political momentum for adaptation and resilience in Africa.</p>
